Course overview

Learn maths in a fun and engaging way to open doors to work and study opportunities. This course teaches you essential maths skills through practical examples and will support you in everyday situations. It will help you to develop practical maths skills such helping your child with maths in primary school, helping you to save money with your utility bills, shopping calculations. It's ideal for you if you would like to progress onto other maths courses GCSE-equivalent maths qualification. Whether you have studied basic Maths before or you are completely new to it, you will find value in this Maths course. You do not need any special tools to attend, just yourself and some enthusiasm. Start your Maths journey by registering for this course today! This course is free for anyone who hasn't achieved a GCSE maths grade 4.

Course description

This is an entry level numeracy course.

This course is based on face-to-face teaching in a classroom setting.

This is an adult maths course with a practical focus. You will have the opportunity to earn valuable badges and you will also receive a certificate upon course completion. This is useful if you are looking for a job.

For this course, you'll also need an internet connection. This is so you can access our digital learning platform, Canvas.

Before you can enrol on this course, you'll do an assessment. Don't worry, this isn't an exam. It's for us to make sure you get on the right course for your level.

In addition to maths and numeracy; citizenship, employability and digital skills will also be embedded in the programme.

Assessment of learning will be done regularly throughout the course.

Information, advice and guidance will also be given to enable further course/professional progression.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
