## **Course overview**

Come and join our enthusiastic tutor and a group of likeminded crafters as we immerse ourselves into the world of paper-crafting and greeting card making. This engaging course will focus on transforming flat pieces of card and paper into captivating 3 dimensional scenes and pop-up surprises. On this course we will discuss dioramas in general, we will look at suitable themes and the basic materials and tools needed. We will also create simple pop-up mechanisms to surprise and delight our recipients. Craft in general is known to have a positive effect on the mental health of those that do it, and card-making is fun, productive and very rewarding: you create lovely, personalised cards for the special people in your life. Boost your confidence and build your skills as we experiment with some new designs and techniques. This course is suitable for those with some experience of card making and a well-stocked craft room.
