Course overview

This is an introductory course to IELTS for participants who have already reached Entry level 3 ESOL minimum standard. It is a practical short course which aims to help students and employees to become familiar with IELTS tests and English language skills.

Course description

The International English Language Testing System (IELTS) is designed to help people work, study or migrate to a country where English is the native language. This includes countries such as Australia, Canada, New Zealand, the UK and USA. IELTS is an internationally recognised test for determining the English proficiency of non-native English speakers. Thousands of education and training providers all over the world use IELTS results to select their students. Many professional registration bodies and employers rely on IELTS as proof of English language ability. This course is an introduction to IELTS for people who would like to improve their English language reading, listening, writing and speaking skills. Candidates can progress to other IELTS courses and can register themselves to take tests online via the British Council website.
