Level of study

Beginners

Course overview

Welcome to the 'Language for Numeracy' course! This course is designed to help you understand and use English in mathematical contexts. You will learn to read and write numbers, understand math terms, and solve basic problems. You will learn how to use measurements, handle money, and tell the time. The course aims to improve your English skills through practical numeracy tasks in a supportive learning environment. Your tutor will encourage the use of language around numeracy and you will work with incredible students from all around the world that can compare language used for numeracy from their countries.

Course description

Throughout this course, you will focus on foundational skills essential for everyday numeracy. You will start by mastering the basics of reading and writing numbers in English, ensuring you can confidently interpret and communicate numerical information.

You will delve into essential math terminology, helping you grasp key concepts and apply them to solve basic mathematical problems. Practical exercises will cover a range of topics including measurements, handling money, and telling time, equipping you with the skills needed for practical situations in daily life. Each session is designed to be interactive and engaging, promoting active participation and hands-on learning.

Our supportive learning environment encourages collaboration and provides individualised support by our very experienced tutor, ensuring you can progress at your own pace and feel confident in your numerical skills. By the end of this course, you will have enhanced your ability to use English effectively in numeracy tasks, empowering you to navigate real-world situations with confidence and proficiency.

Join us on this journey to strengthen your numeracy skills and improve your English!

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
