Course overview

Build up your basic maths skills to help you progress towards work and study opportunities. Adult maths teaches you practical skills for everyday life. This entry 2 functional skills maths course offers a practical way to learn maths as an adult. Understand maths through real-life situations. Functional skills maths entry 2 courses expand your understanding of basic calculations. This can help you learn to manage your personal budget and do other daily tasks. This entry 2 functional maths course is right for you if you want to build on your basic maths skills to work or study. It can help you show employers that you have the essential skills they look for. Functional Skills qualifications are free if you don't already have a GCSE in English or Maths at grades A*-C, or 4-9. We'll check your level and any previous qualifications before you start. This ensures you are on the correct course.

Course description

What we'll cover

- Develop your understanding of numbers, including odd and even numbers, decimals, fractions, and three digit numbers.
- Learn to multiply, divide, and express remainders.
- Carry out calculations involving money and time.

- Develop your understanding of 2-D and 3-D shapes and expand your vocabulary to be able to explain their features.
- Read and interpret data in tables, lists, diagrams, and bar charts.

Entry 2 functional skills maths courses teach you essential maths skills for employment and learning. They are adult maths courses with a practical focus.

When you finish entry 2 level you can progress to entry 3 functional skills maths courses. There are also “get ready” courses between each level to prepare you for the next course. The highest level is level 2.

Level 2 maths functional skills courses are accepted as a GCSE equivalent for many jobs and courses. They can help you do an apprenticeship, higher education course, or go to University.

What to expect

This maths course takes around 60 hours to complete.

Functional skills courses are ideal for flexible learning. You can choose to take an in-person or online functional skills course.

To take this functional maths course you need to have a digital device such as a computer or tablet. You’ll also need an internet connection. This is so you can access our digital learning platform, Canvas.

Before you can enrol on this course, you’ll do a skills check. Don’t worry, this isn’t an exam. It’s for us to make sure you get on the right course for your level.

Our friendly team will contact you to start your skills check as part of your booking.

The WEA is an experienced adult maths course provider. We want you to get the most out of your studies and open doors to opportunities. Our tutors and staff will help you with any needs you might have.

The WEA is committed to providing accessible adult education. Please let us know if you have any special requirements to do this functional maths course.

Most of our courses are free for most of our learners. Please note that you need to reach the end of the enrolment process to see the discounts.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need alternative financial help to access them then let us know.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
