Beginners

Course overview

This course is designed for pre-entry ESOL learners to introduce basic digital skills. During the course, students will learn fundamental computer skills such as using a keyboard, mouse, and navigating the internet. The course covers basic software applications like word processing and email. Practical exercises and interactive tutorials will help students gain confidence in using digital tools effectively. By the end of the course, students will have developed essential skills for using computers and the internet, empowering them to navigate the digital world with confidence.

Course description

This course is tailored for pre-entry ESOL learners to build foundational digital skills necessary for navigating the modern digital landscape. The course introduces fundamental computer skills, including using a keyboard, mouse, and basic software applications such as word processing and email. Students will also learn how to browse the internet safely and effectively. Interactive tutorials, practical exercises, and hands-on activities will guide students through each skill, ensuring understanding and mastery. The course emphasises practical application, allowing students to practice what they learn in real-world scenarios. Throughout the course, students will gain confidence in using digital tools and understanding basic computer terminology. They will develop essential skills for communicating online, accessing information, and completing basic tasks using digital technology. By the end of the course, students will be equipped with the knowledge and skills needed to confidently navigate digital platforms and use technology for everyday tasks. This course is ideal for pre-entry ESOL learners looking to enhance their digital literacy and take part more fully in today's digital society.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need alternative financial help to access them then let us know.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
