Level of study

Advanced

Course overview

Come and join us to develop your creative skills and create some unique and beautiful projects of your own! This Advanced Mosaic course is the opportunity to complete a complex design or method that is specific to you. With guidance and advice, you will be provided with support as you go through each stage. Having completed the Beginners' and Intermediate courses, by now you will have understood and practised various mosaic techniques and become adept at using the tools and materials. This is a chance to continue developing design and cutting skills and to allow your personal style to evolve.

Course description

The main aim for this Advanced Mosaic course is for you to undertake a more complex mosaic using skills learnt from previous experiences - be that with the method, the design, or the intricacy. You will be encouraged to undertake your own research, plan, design and estimate the cost of your project in advance, as you would if you were commissioned by a potential customer.

In addition to this main task, other projects will be suggested such as micro mosaics, as well as a proposal to try a method, technique, or material that you have not yet undertaken. You will be challenged to take your skills to the next level and to give constructive feedback to others on their own projects.

All equipment is provided, or you can bring your own. Most students will need to purchase some materials from the tutor at cost price; depending on the project this might include china, glass, bases, adhesive and grout, etc. Aprons are provided or you can bring your own. On completion of this course, you can progress to further craft courses, focusing on specific advanced techniques

or other courses where you can develop your digital or maths skills.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need alternative financial help to access them then let us know.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
