Course overview

This workshop has been set up to create a festive and beautiful Christmas wreath using a variety of materials and techniques. You will learn how to design, assemble, and decorate a wreath, gaining both skills and a finished product to take home. You will leave the workshop with a handcrafted Christmas wreath and the knowledge to create more in the future. The workshop aims to foster creativity, provide a fun and festive activity, and enhance your holiday decor skills. No experience is needed as the tutor will offer full support and guidance to help you make your Christmas Wreath.

Course description

During this workshop we encourage you to bring any personal items you may want to include in your wreath. The venue has a great big working environment, with lots of space to spread out and work on your Christmas Wreath.

Handouts can be provided with step-by-step guidance. Although the tutor will be supporting you each step of the way.

All materials will be provided, including greenery, wreath base, decorative items, floral wire and tape. The tutor will also forage for the greenery just before the workshop starts, to ensure you have the healthiest greenery to work with.

The workshop is practical based with a brief introduction. So, no pens and paper are required to make notes. Your tutor will also support you with safety instructions whilst using all the tools and equipment.

At the end of the workshop, you will be able to personalise your wreath, make final adjustments and be given tips on how to preserve your wreath, also where to source materials for future projects. You will then get the opportunity to present your wreath to the rest of the group.
