Course overview

This intriguing course delves into the history of epidemics, focusing on the cultural, social, and scientific responses to diseases spread through coughing and sneezing. From the bubonic plague to the flu pandemics and COVID-19, students will explore how societies have understood and managed infectious diseases over time. Through historical case studies, primary sources, and discussions, participants will gain insight into the development of public health measures, the impact of epidemics on societies, and the lessons learned from past outbreaks.

Course description

This intriguing course delves into the history of epidemics, focusing on the cultural, social, and scientific responses to diseases spread through coughing and sneezing. From the bubonic plague to the flu pandemics and COVID-19, students will explore how societies have understood and managed infectious diseases over time. Through historical case studies, primary sources, and discussions, participants will gain insight into the development of public health measures, the impact of epidemics on societies, and the lessons learned from past outbreaks. By the end of this course learners will understand the historical context of major epidemics spread through the respiratory transmission. Explore the cultural and social responses to outbreaks of infectious diseases and the development and evolution of public health measures and policies.

They will also be able to engage in discussions on the ethical and societal implications of epidemic responses.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need alternative financial help to access them then let us know.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
