Course overview

Support your child's maths education with our ESOL - Help Your Child with Maths course. Develop the language and numeracy skills needed to assist your child with their maths homework. Ideal for non-native speakers looking to enhance their maths and English proficiency.

Course description

Level 1 ESOL: ESOL - Help Your Child with Maths is designed to help non-native English speakers improve their language and numeracy skills to support their child's maths education. This course covers essential mathematical concepts, including basic arithmetic, fractions, and measurement, with a focus on their application in everyday life and homework tasks. Participants will learn practical vocabulary and phrases used in maths, ensuring they can understand and explain mathematical concepts to their children. The course includes interactive activities, practical exercises, and real-life examples that demonstrate effective strategies for helping children with their maths homework. By the end of the course, participants will have improved their maths and English proficiency, enabling them to support their child's education more effectively. This course is ideal for parents and carers looking to enhance their numeracy and language skills to assist their children with maths.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
