## Course overview

Enhance your English skills while learning how to support your child's maths education with our Level 1 ESOL: ESOL - Help Your Child with Maths course. Focus on practical communication and numeracy. Ideal for non-native speakers looking to improve their English proficiency and help their child succeed in maths.

## Course description

Level 1 ESOL: ESOL - Help Your Child with Maths is designed to help non-native English speakers improve their language skills while gaining the knowledge needed to support their child's maths education. This course covers key aspects of English communication and numeracy, including practical vocabulary and phrases used in educational contexts, basic arithmetic, and understanding maths concepts. Participants will learn strategies for helping their child with maths homework, preparing for exams, and building confidence in their mathematical abilities. The course includes interactive activities, group discussions, and role-plays that encourage active participation and real-life practice. By the end of the course, participants will have a solid foundation in English and numeracy skills, enabling them to support their child's maths education more effectively. This course is ideal for non-native speakers looking to improve their English proficiency and help their child succeed in maths.

## What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need.

## What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
