Course overview

Build on your digital literacy skills with our Digital Skills for Everyday Living: Intermediate course. Learn more advanced techniques for using computers, navigating the internet, and understanding essential software applications. Ideal for individuals with basic digital skills looking to enhance their proficiency.

Course description

Digital Skills for Everyday Living: Intermediate is designed to help individuals with basic digital skills advance their proficiency in using technology. This course covers more advanced aspects of digital literacy, including using complex software applications, advanced internet navigation, and effective digital communication. Participants will learn how to manage digital files, use advanced features of word processors and spreadsheets, and navigate social media platforms safely. The course includes practical exercises and real-life scenarios that allow students to apply their skills in various contexts. By the end of the course, participants will have enhanced their digital literacy and be equipped with the skills needed to use technology effectively in their personal and professional lives. This course is ideal for individuals looking to build on their basic digital skills and gain more confidence in using technology.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need alternative financial help to access them then let us know.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
