Course overview

Learn how to use spreadsheets to manage your finances with our Using a Spreadsheet to Manage Finances Multiply course. Understand basic spreadsheet functions and how to apply them to budgeting and financial planning. Ideal for individuals looking to improve their financial literacy and digital skills.

Course description

Using a Spreadsheet to Manage Finances Multiply is designed to teach individuals how to use spreadsheet software to manage their finances effectively. This course covers essential spreadsheet functions, including data entry, formulas, and creating budgets. Participants will learn how to set up and use spreadsheets to track income, expenses, and savings, as well as how to analyse financial data to make informed decisions. The course includes practical exercises and real-life examples that demonstrate how to apply spreadsheet skills to personal finance management. By the end of the course, participants will have the knowledge and skills needed to use spreadsheets to manage their finances efficiently and improve their financial literacy. This course is ideal for individuals looking to enhance their digital skills and take control of their finances.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
