Course overview

Prepare for maths exams with our Get Ready for Maths Multiply course. Learn essential maths skills and techniques for effective exam preparation. Ideal for students looking to improve their maths proficiency and exam performance.

Course description

Get Ready for Maths Multiply is designed to help students prepare for maths exams by developing essential maths skills and techniques. This course covers key mathematical concepts, problem-solving strategies, and exam preparation techniques. Participants will learn how to tackle different types of maths questions, manage their time effectively during exams, and reduce exam-related stress. The course includes practice exams, interactive activities, and expert guidance to support students in their exam preparation. By the end of the course, participants will have a comprehensive understanding of the maths skills needed to succeed in exams and the confidence to perform well. This course is ideal for students looking to improve their maths proficiency and achieve their academic goals.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
