Venue

Clovelly Centre (Southampton)

60-68 Clovelly Road
Southampton
SO14 0AU

Level of study

Beginners

Course overview

This course is specifically designed for individuals who are looking to build foundational mathematical skills with a focus on practical applications in the context of employment. Whether it's looking at vacancies, start and end times, pay and general information around workplace vocabulary involving numeracy. This course will help you navigate your way around numeracy for work and teach you how to calculate and understand vacancies and jobs better.

Course description

This course will work with students needing to take their first steps towards formal numeracy qualifications in order to get employment in the UK. E.g. refugees needing to upskill to UK Maths qualifications but needing support to understand the system in the UK and the basic language of Maths. This course can lead to a FS Maths qualification and it will focus on numeracy for work, especially in terms of understanding job advertisements, weekly hours, and pay. The main focus of the course will be to build your confidence around numeracy for work and help you search for jobs easier whilst understanding the details of job vacancies.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
