Beginners

Course overview

Improve your child's numeracy skills with practical tips and strategies in this course. Ideal for parents and carers looking to support their child's learning at home.

Course description

Help Your Child with Numeracy Multiply is designed to help parents and carers support their children in developing essential numeracy skills. The course covers strategies for breaking down complex mathematical concepts into simple, understandable steps, making it easier for children to grasp key numeracy skills. Participants will learn how to engage children in fun, educational activities that improve their mathematical abilities and boost their confidence with numbers. By the end of the course, parents will feel more confident in helping their children with maths and be better equipped to support their children's learning journey. This course is ideal for parents and carers who want to play an active role in their child's numeracy development

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
