## Course overview

Take your maths skills to the next level to help you with work or study opportunities. Adult maths teaches you practical numeracy skills for everyday life. This entry 3 functional skills maths course offers a practical way to learn maths as an adult. Functional skills maths courses aren't like studying maths at school. You'll learn maths in context. Develop maths skills to face real-life situations such as organising your personal budget or applying discounts when shopping. This entry 3 functional maths course is right for you if you want to enhance your maths skills to work or study. It can help you learn essential maths skills employers look for. Functional Skills qualifications are free if you don't already have a GCSE in English or Maths at grades A\*-C, or 4-9. We'll check your level and any previous qualifications before you start. This ensures you are on the correct course.

## What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need alternative financial help to access them then let us know.

## What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
