Level of study

Beginners

Course overview

Build up your basic maths skills to help you progress towards work and study opportunities. Adult maths teaches you practical skills for everyday life. This entry level functional skills maths course offers a practical way to learn maths as an adult. Understand maths through real-life situations. Functional skills maths entry courses expand your understanding of basic calculations. This can help you learn to manage your personal budget and do other daily tasks. This entry 2 functional maths course is right for you if you want to build on your basic maths skills to work or study. It can help you show employers that you have the essential skills they look for.

Functional Skills qualifications are free if you don't already have a GCSE in English or Maths at grades A*-C, or 4-9. We'll check your level and any previous qualifications before you start. This ensures you are on the correct course.

Course description

Develop your understanding of numbers, including odd and even numbers, decimals, fractions, and three-digit numbers. Learn to multiply, divide, and express remainders. Carry out calculations involving money and time. Develop your understanding of 2-D and 3-D shapes and expand your vocabulary to be able to explain their features.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need alternative financial help to access them then let us know.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
