Course overview

Welcome to Introduction to Digital Devices! This course is designed for beginners who want to learn the basics of using digital devices effectively. In today's world, digital devices are ubiquitous, from smartphones and tablets to laptops and desktop computers. Understanding how to navigate and utilize these devices is essential for both personal and professional endeavours.

Course description

Throughout this course, you will explore the fundamental concepts and functionalities of various digital devices. You will learn how to operate different types of devices, access the internet, manage files and folders, and use essential software applications. Whether you're a complete novice or someone looking to refresh their digital skills, this course will provide you with a solid foundation to confidently interact with digital technology. Your learning is our priority. The WEA pride ourselves on our ability to create a friendly classroom atmosphere, at a venues within your community. Your tutor will support you through your learning journey, every step of the way. Our courses are free for most of our learners, but please bring proof of eligibility when you come to enrol. We can't wait to see you there!

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
