## **Course description**

In this festive course, you'll dive into the fundamentals of composition, colour theory, and design with a focus on holiday-inspired art. We'll explore how to use balance, contrast, and harmony to make visually captivating pieces that embody the spirit of the season. Starting with colour, you'll learn to pair complementary hues—like traditional reds and greens or contrasting icy blues and warm whites—to bring vibrancy to your work. We'll also look at incorporating neutral tones to make focal colours stand out and add dimension. In composition, you'll experiment with arranging elements like snowflakes, ornaments, and seasonal foliage, learning how to use lines of view to guide the eye and create engaging focal points. You'll explore the impact of different layouts and spacing to ensure your designs are dynamic and well-balanced. Lines of view will also help direct the gaze across your artwork, enhancing storytelling and cohesion within your holiday themes. By the end of the workshop, you'll have a piece that's beautifully composed and professionally polished, ready for use as a holiday card, decor, or gift. This workshop offers a unique chance to combine festive creativity with foundational design skills.
