Beginners

Course overview

Learning how to construct, apply modelling techniques and then paint air dry clay items.

Course description

Explore your creativity with air-dry clay. This hands-on course is perfect for beginners and anyone who loves crafts. Air-dry clay is a versatile, easy to use material that doesn't need a kiln as it hardens naturally when exposed to air. It can be used to make many things such as decorative bowls, small sculptures and other ornaments. The course will teach the basics of working with this clay including how to mould, shape and add texture and detail to projects. Once the items are dry you will learn painting and decorating techniques to complete the work. The course aims to be a relaxing experience that can help to reduce stress as well as boosting creativity.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need alternative financial help to access them then let us know.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
