## Course overview

Our Multiply: Strategies for Maths L1 Exams course is designed to help learners build the skills and confidence needed to succeed in the Level 1 Maths exam. This course focuses on effective exam strategies, covering key topics such as arithmetic, data handling, and problem-solving. Learners will work through a range of practice exercises and exam-style questions, building their understanding and improving their exam technique. By the end of the course, learners will have a clear strategy for approaching the exam and the confidence to tackle a variety of questions successfully.

## Course description

The Multiply: Strategies for Maths L1 Exams course is designed for learners preparing for the Level 1 Maths exam. This practical and interactive course provides the tools and strategies necessary to perform well in the exam and gain a solid understanding of key mathematical concepts.

Throughout the course, learners will explore important topics including number operations, fractions, percentages, and data analysis. The course will also cover strategies for solving word problems, improving mental maths, and using calculators effectively. Learners will be guided through a series of practice exercises, designed to develop their skills and build confidence.

In addition to subject-specific knowledge, learners will develop effective exam strategies to help them manage their time, approach different types of questions, and reduce exam anxiety. Practice tests will be provided, offering learners the opportunity to simulate exam conditions and evaluate their progress.

By the end of the course, learners will be well-prepared for the Level 1 Maths exam, equipped with the strategies and skills needed to approach the exam with confidence and success. This course is ideal for those looking to

improve their maths skills and achieve their Level 1 Maths qualification.

## **What financial support is available?**

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need.

## **What other support is available?**

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
