Course overview

Learn fun and effective maths activities to teach your kids with our Multiply: Maths Activities to Teach Your Kids course. Discover techniques for making maths enjoyable and engaging for children. Ideal for parents and educators looking to support children's maths learning.

Course description

Multiply: Maths Activities to Teach Your Kids is designed to help parents and educators teach maths to children in a fun and engaging way. This course covers a range of maths activities and techniques that make learning maths enjoyable for kids. Participants will learn how to use games, puzzles, and hands-on activities to teach mathematical concepts such as addition, subtraction, multiplication, and division. The course includes practical examples, interactive activities, and expert guidance to support participants in their teaching efforts. By the end of the course, participants will have a toolkit of maths activities that can be used to support children's learning and make maths fun. This course is ideal for parents and educators looking to enhance their ability to teach maths to children effectively.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
