Intermediate

## **Course overview**

This Intermediate Microsoft Excel course is aimed at Beginners with some basic knowledge of Spreadsheets who want to improve and learn further skills. You will learn how to enhance your spreadsheet with formatting, images, and shapes. Sort and filter data. Customise a template. Create a chart that you can use in the workplace to present to colleagues or use for personal finances, budgets or creating a list of items and values.

## **Course description**

You will learn how to use Microsoft Excel to enhance your spreadsheets by formatting data in cells, insert an image. Sorting and filtering data. Customise templates. Copying and pasting data between worksheets. Use a range of Excel functions and formulas. Linking data in a formula. Create and customise charts.

Your friendly, knowledgeable tutor will guide and support you through your learning journey.

You will need access to the internet to complete this course. Learning materials including handouts and exercises will be available on canvas, the WEA's Digital Learning platform. You will need a digital device e.g. tablet or laptop to access the course.

## **What financial support is available?**

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need alternative financial help to access them then let us know.

## **What other support is available?**

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
