Course overview

This practical course is designed for photography enthusiasts who want to take full control of their camera and capture better photographs. Whether you have a DSLR, mirrorless, or compact camera, this course will help you understand its functions, settings, and features. Participants will explore essential photography concepts such as aperture, shutter speed, ISO, and composition. By the end of the course, you'll feel confident using your camera in manual or advanced modes and be equipped with the knowledge to elevate your photography skills.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need alternative financial help to access them then let us know.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
