## **Course overview**

This course is designed to introduce students to the art of sewing and the world of textiles, from foundational skills to garment construction. Through practical, hands-on learning, students will develop proficiency in sewing techniques, fabric selection, and pattern construction. By the end of the course, students will be able to design, create, and customise their own garments or textile projects, with a focus on craftsmanship, creativity, and sustainability.

## **Course description**

This course provides an introduction to sewing and textiles, offering students hands-on experience in learning different sewing techniques and garment construction. Participants will gain an understanding of fabric types, tools, and machine operation, moving from basic to skilled sewing techniques. The course will emphasise creativity, precision, and problem-solving while creating various textile projects such as Asian dressmaking. By the end of the course, students will have the confidence to create custom clothing and understand the fundamentals of textile design.

## **What financial support is available?**
