Beginners

Course overview

Support your child's numeracy development with our Help Your Child with Numeracy course. Learn effective strategies and techniques to assist your child with maths. Ideal for parents and carers looking to enhance their child's numeracy skills.

Course description

Help Your Child with Numeracy Multiply is designed to help parents and carers support their child's numeracy development. This course covers key strategies and techniques for assisting children with maths, including understanding basic mathematical concepts, problem-solving, and using practical examples to reinforce learning. Participants will learn how to create a positive learning environment, use everyday situations to teach maths, and build their child's confidence in their mathematical abilities. The course includes interactive activities, discussions, and practical tips for helping children with their maths homework and developing their numeracy skills. By the end of the course, participants will have a toolkit of strategies and techniques to support their child's maths education and help them succeed in school. This course is ideal for parents and carers looking to enhance their child's numeracy skills and foster a positive attitude towards maths.

What financial support is available?

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need.

What other support is available?

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
